### **Dayton Superior Announces Plans to Invest In Regionalized Manufacturing Hubs**

**Dayton, Ohio Jan. 8, 2015** – Dayton Superior Corporation has announced today the integration of the company’s paving manufacturing at Valparaiso, Indiana into the regional paving hub in Kankakee, Illinois.

This strategy allows Dayton Superior to expedite their new product development initiatives, occurring within the corporate Innovation Center, with our newly regionalized paving manufacturing hubs.

“The regionalization strategy in the manufacturing of our paving products means we are making a significant investment within this segment of our business,” explained Jim McRickard, President and CEO of Dayton Superior. “We make this investment to further our efforts in creating a competitive edge for our customers. As we continue to develop new products at an industry-leading pace, we are also further enhancing our service model for our customer base.

The Kankakee hub will service customers throughout the Midwest, South Central, Northeast and Southeast, while our Modesto, California hub will serve customers in the West including the Northwest and Southwest regions.

As the leading provider of paving product solutions to the US market, Dayton Superior manufactures the industry’s most comprehensive offering of dowel baskets and other load transfer devices for:

- Roads & highways
- Airport foundation structures & runways
- Distribution center foundations & connecting roadways
- All other heavy use paving applications
